The following sections outline some of Sophisticare’s key policies, procedures and requirements in delivering their service. A full outline of any of these policies, procedures or requirements are contained within each carers Company Handbook and are available upon request.

Identity Cards

Each carer is issued with an identity card on joining the Company. These will be carried with them at all times and should be presented before entering any premises.

Service User Key Handling Policy

Sophisticare does not hold keys to Service Users’ homes, but does encourage external key safes for that purpose. For any concern about entry to a home contact Sophisticare on 01635 817401.

Health and Safety Policy

Sophisticare acknowledges and accepts its statutory responsibilities for securing the health, safety and welfare of all its carers, Service Users, contractors working on premises over which it has control, visiting members of the public and all others affected by their activities.

Sophisticare will provide and maintain safe and healthy working conditions, in particular ensuring, as far as reasonably practicable, that:

- The premises and equipment are kept in a clean and safe condition;
- Service Users are made aware of any safety issues that need addressing within their home;
- Working practices are safe;
- Everyone receives information, training and supervision in how to carry out their work with regard for their own and others’ safety;
- Contractors and visitors are made aware of the procedures and rules in place to safeguard health and safety;

- Safety factors are given important consideration when any changes are made to the operation or when new equipment is specified and installed.

Sophisticare will encourage everyone to be actively involved in maintaining the safest possible operating conditions and practices.

Care Plan

A care plan will be completed for each Service User and a copy will be kept in the individual Service User's file, kept within the home. A care plan will be completed by Sophisticare and will determine the services provided. This plan will be reviewed by Sophisticare, however, for Social Service's clients, changes to the amount/type of care required will need to be agreed following a review by a West Berkshire Social Services Care Manager and there may be delays in providing additional service.

Work Programs/Timing of Calls

The days and times of services will be agreed directly with a Social Services Care Manager or the Service User if a private client at the outset. Sophisticare will add the days and times of visits into their carer's daily work plans. If a

Service User is unsure about the days and times of visits they should call Sophisticare on 01635 817401. Sophisticare will endeavour to keep to the agreed time in a care plan, but a Service User will need to allow flexibility of approximately half an hour either prior to or after their designated call time, as there may be some unavoidable delay due to traffic or problems with previous Service Users. If the time of a visit needs to change permanently a Service User will be consulted. A weekend visit may be at a different time to a weekly visit, but should remain constant every weekend.

If a regular carer is off sick or on holiday Sophisticare will take every reasonable step to advise Service Users of any change in time or carer, however, this can not be guaranteed, where short notice cover is required.

Duration of Calls

It is a carers' role to complete all the tasks within a care plan within the time allocated. A carer is asked to stay with a Service User for the total allocated time. If a Service User is satisfied that all tasks have been completed to their satisfaction within the allocated time and the Service User is happy for the carer to leave, this should be noted and signed within the daily record sheet.

Health Tasks

Sophisticare's carers are not permitted to carry out any duties that should be performed by a trained nurse and are not permitted to either give medication or purchase any kind of medication on a Service User's behalf.

The Service User File

All Service Users will be provided with a Service User file which will be kept within their home. The Service User file will contain information on: communication sheets, health and safety assessments, care plan, accidents and incidents recording, daily record sheets, complaints procedure, a copy of the Service Users Guide, medication sheets and a complaints procedure.

All relevant information will be kept within the file and Service Users are able to access it as often as they wish. Daily record sheets and time sheets are handed into the office each month. Service Users have the right to access their personal information kept within Sophisticare's office. However, third party information from outside Sophisticare is only available with written consent of the original provider of that information. When a service ends the file should be returned to Sophisticare at the address detailed within the file.

Temporary Absence or Cancellation of Service

A Service User should inform Sophisticare if they know they are not going to be in for their call or if they are going to be away for a number of days by calling 01635 817401.

Entry to a Service User's Home

A carer is not permitted to enter a home if a Service User is not there. The Service User will be asked how they would like their carer to enter their home. A carer should agree with the Service User how they wish to be addressed. E.g. Mr or Mrs to being called by a first name.

Risk Assessments

To comply with Health and Safety legislation it will be necessary to carry out a risk assessment which will be reviewed at least annually. If as a result of any review specialist equipment is provided this must be used at all times.

Gifts, Gratuities or Rewards

A Carer should not automatically accept gifts, gratuities or rewards from Service Users or their relatives without authorisation from their line manager. Sophisticare reserves the right to hold any gifts, gratuities or rewards for even distribution throughout the Company or to decline offers. Handling Service User's Money

Anyone, who as part of their role, is required to handle Service User's money will be responsible for accounting for all transactions relating to its use. Failure to do so may result in disciplinary action or dismissal.

Details of monies given to a carer must be entered onto the "Cash Record Form" and signed by the Service User as correct. Receipts must be obtained for all transactions and kept with the Cash Record Form. Any change should be entered onto the Cash Record Form and passed immediately back to the Service User, the Service User should then sign the Cash Record Form to confirm the transaction has been completed to their satisfaction.

Pension Books – Pension books and the money should be returned to the Service User immediately following collection. Details of the cash should be entered into the Cash Record Sheet and signed by the Service User to confirm receipt. Under no circumstances should they be taken home or passed to any non-member of staff. Failure to adhere to these rules will result in serious disciplinary action.

The Company embraces Social Service's Inter-Agency Procedures and Guidelines for responding to the Abuse of Vulnerable Adults and the Department of Health guidance No Secrets.

The abuse may take different forms, the most common of which are detailed below. It is important to remember that abuse may not be obvious; it can happen initially by accident and build up over time.

 - ◆ Talking about personal financial problems so that the older person feels they must help out or leave money in their Will.

- ◆ Keeping control over the older person's cheque book and pension book so that they do not have control over their own money.
